Welcome

OUR BUSINESS MODEL

nLogic Advisory is an expert platform with the idea of Expert Hub or Think Tank for experts from different areas of engineering, law, economy and other technical, natural and social sciences with the goal of expert and consultant services in energy sector, energy efficiency (EE), renewable energy sources (RES), environment protection, climate change and sustainable development.

OUR VISION:

As an expert hub, we want to gather leading experts for energy, environment and climate change so that they can contribute to the common sustainable goal of environment protection, pollution and climate change, as well as give clients the optimal business solutions.

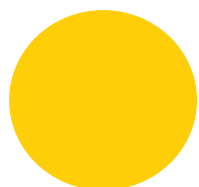

OUR MISSION:

nLogic Advisory is the first expert platform in B&H with a professional network in the region of Western Balkan and EU and a long collaboration with experts from other countries, all based on common interest, connectivity, transfer of knowledge and experiences.

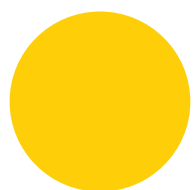

Working hard for
something we love
is called passion

Team expertise:

Our interdisciplinary team has the expertise needed to give implementation of most complex projects. We have established cooperation with a large number of companies, independent consultants, academic workers as well as experts from the above mentioned areas of South East Europe and beyond. Members of our team are members of EcT (Energy Community Secretariat), IRENA (International Renewable Energy Agency), UNDP (United Nation Development Programme) roster of experts. nLogic team is capable of giving lead services of business consulting, including services such as consulting and research in fields of: sustainable development, climate change, energy, environment, energy efficiency and renewable energy sources.

Our long-term goal

To train a new generation of experts in a field of energy, environment and climate change, to contribute to local governments obligations towards global climate changes and to contribute to increased and efficient use of renewable energy sources.
